

Sri Hari Jagan Mushini

Full Stack Developer — MERN Stack

+91 95052 22778 — sriharijagan04@gmail.com — [LinkedIn](#) — [GitHub](#) — [Portfolio](#)

PROFESSIONAL SUMMARY

Full Stack Developer with **2+ years of experience** building and deploying production applications using **React.js, Node.js, Express.js, MongoDB, TypeScript, and FastAPI**. Experienced in **REST APIs, JWT/RBAC, database integration, third-party APIs, and end-to-end application development**.

TECHNICAL SKILLS

Languages	JavaScript, TypeScript, Python, SQL
Frontend	React.js, Next.js, Redux Toolkit, Tailwind CSS
Backend	Node.js, Express.js, FastAPI, REST APIs, JWT, RBAC
Database	MongoDB, MySQL, PostgreSQL, Redis
Tools	Git, GitHub, Docker, Nginx, Postman, Vercel, Render

PROFESSIONAL EXPERIENCE

Software Engineer

Apr 2024 – Present

XTS Services, Hyderabad

(Previously with TTL Engineering Pvt Ltd — same role, continuous engagement)

- Engineered and deployed production web applications using React.js, TypeScript, Node.js, Express.js, FastAPI, MongoDB, and MySQL across healthcare, business, and workflow platforms.
- Designed and developed **45+ REST APIs** for authentication, role-based access, business workflows, and third-party integrations, with JWT-based security and request validation.
- Built core features for a **multi-role Hospital Management platform**, supporting operational workflows across doctors, nurses, reception, pharmacy, laboratory, blood bank, ambulance, and administration.
- Integrated **Razorpay payments, webhooks, Redis caching, and BullMQ background jobs** to support secure transactions, asynchronous processing, and reliable application workflows.
- Managed production deployments and application infrastructure using **Docker, Nginx, VPS, Vercel, and Netlify**, including deployment configuration and production troubleshooting.
- Worked across frontend, backend, database, and deployment layers to deliver features from development through production release.

Freelance Full Stack Developer

Jan 2024 – Mar 2024

Civil-AI

- Developed responsive frontend features using React.js, JavaScript, and Tailwind CSS for AI-focused application workflows.
- Built reusable UI components and integrated REST APIs to deliver data-driven interfaces with form validation, loading states, and error handling.
- Translated product requirements and UI designs into responsive application features, collaborating on implementation and frontend improvements.

Teaching Assistant

May 2023 – Nov 2023

Coding Ninjas

- Mentored students in JavaScript, React.js, frontend development, debugging, and problem solving through hands-on coding sessions and technical guidance.

SELECTED PROJECTS

MetaHealth — Healthcare Management Platform

React.js · Node.js · MySQL

- Developed a full-stack healthcare platform with role-based workflows for clinical, nursing, reception, and administrative operations.
- Built REST APIs with JWT authentication and RBAC, implementing secure access control and data-driven management dashboards.

Pragya Yoga — Wellness Management Platform

React.js · Node.js · MongoDB

- Developed a full-stack wellness platform for customer management, classes, registrations, attendance, bookings, and administration.
- Implemented authentication, REST APIs, role-based access, and production workflows for customer and administrative operations.
