

Sri Hari Jagan Mushini

React.js / MERN Stack Developer

+91 95052 22778 | sriharijagan04@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven React.js / MERN Stack Developer with 2+ years of hands-on experience delivering production-grade web applications for real businesses. Built and shipped admin dashboards, booking systems, e-commerce platforms, and SEO-optimised business websites using React.js, Node.js, Express.js, MongoDB, and FastAPI. Proven ability to own full delivery — from requirements gathering and API design to deployment and production maintenance. Adept at performance optimisation, role-based access control, and responsive UI development.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Redux Toolkit, Framer Motion

Backend: Node.js, Express.js, FastAPI, REST APIs, JWT Authentication

Databases: MongoDB, MySQL, Firebase Firestore, SQLite

Tools & DevOps: Git, GitHub, Postman, Vercel, Netlify, VS Code

Core Concepts: API Integration, Authentication & RBAC, Responsive Design, SEO Optimisation, Performance Optimisation, Lazy Loading, Code Splitting

PROFESSIONAL EXPERIENCE

Full Stack Developer — TTL Engineering Pvt Ltd | Andhra Pradesh

Mar 2024 – Present

React.js · Node.js · Express.js · FastAPI · MongoDB · MySQL

- Engineered and deployed 5+ production web applications (admin dashboards, booking systems, workflow managers) used daily by business clients.
- Designed and built RESTful APIs with FastAPI and Express.js, reducing average API response time and enabling seamless frontend-backend communication.
- Implemented JWT-based authentication and role-based access control (RBAC), securing data access across multiple user tiers (Super Admin, Supervisor, Client).
- Improved frontend bundle performance using lazy loading, code splitting, and reusable component architecture, cutting initial load times significantly.
- Owned end-to-end delivery: requirement gathering, UI development, API integration, SEO setup, Vercel/Netlify deployment, and ongoing production maintenance.
- Collaborated directly with non-technical stakeholders to translate business requirements into working features, consistently delivering on schedule.

Frontend Developer — Civil-AI

Jan 2024 – Apr 2024

React.js · Tailwind CSS · CSS Modules

- Built responsive dashboard and notification UIs with React.js and Tailwind CSS, integrating backend APIs for real-time workflow data.
- Developed a reusable component library (dark/light mode support) that reduced UI development time for new features by ~30%.
- Integrated an AI chatbot widget, enhancing user engagement and reducing support queries for the product team.

Teaching Assistant — Coding Ninjas

May 2023 – Nov 2023

- Mentored 100+ students in React.js, JavaScript, HTML, and CSS through project-based modules.
- Conducted weekly code reviews and debugging sessions, improving student assignment pass rates.
- Supported learners with React hooks, REST API integration, and frontend architecture best practices.

KEY PROJECTS

GeoTech Project Management System — [GitHub](#)

React.js · FastAPI · MySQL · SQLAlchemy

- Built a full-stack project management platform for geotechnical field workflows, supporting multi-role users (Super Admin, Supervisors).
- Architected a modular FastAPI backend with routers, services, schemas, and SQLAlchemy ORM — enabling clean separation of concerns and easy feature extension.
- Implemented secure, role-scoped API access with JWT authentication, protecting sensitive project data per user tier.
- Delivered project tracking, reporting dashboards, and workflow management features integrated end-to-end with the React.js frontend.

Manjuu Farms — E-Commerce & Villa Booking Platform

React.js · Node.js · Express.js · MongoDB · Tailwind CSS

- Developed a dual-purpose platform for agro-product e-commerce and villa booking, handling product listings, cart workflows, and booking confirmations.
- Designed and integrated MongoDB schemas and Express.js APIs for dynamic content management and booking state tracking.
- Optimised UI performance and responsiveness across mobile and desktop, resulting in a smooth checkout and booking experience.

Eccellenza Infra — Business Website — [eccellenzainfra.in](#)

React.js · Framer Motion · CSS Modules

- Designed and deployed a fully responsive business website for an interior design and construction company, now live in production.
- Built animated UI sections and a dynamic project gallery using Framer Motion, enhancing brand perception.
- Implemented SEO-friendly meta structure and performance optimisations, improving Lighthouse scores.

JK Grani Marmo — Granite Manufacturing Website — [jkgranimarmo.in](#)

React.js · JavaScript · CSS3

- Developed and deployed a multi-category product showcase website for a granite manufacturing business.
- Optimised page loading speed through image compression and code-splitting, reducing load time for product-heavy pages.

EDUCATION

B.Tech — Computer Science & Engineering

2019 – 2023

Srinivasa Institute of Engineering & Technology, Andhra Pradesh | CGPA: 7.15
