Professional Summary

Full Stack Software Engineer with **2+ years of experience** building and shipping production web applications using **React.js, TypeScript, Node.js, Express.js, MongoDB, Next.js, and FastAPI**. Delivered **5+ production applications and 45+ REST APIs**, with hands-on experience in **RBAC, payment integrations, Redis/BullMQ, and Docker-based deployments** across healthcare, SaaS, and business platforms.

Technical Skills

Languages	JavaScript, TypeScript, Python, SQL
Frontend	React.js, Next.js, Tailwind CSS, Redux
Backend	Node.js, Express.js, FastAPI, REST APIs, JWT, RBAC, Webhooks
Database	MongoDB, MySQL, PostgreSQL, Firebase, Redis
DevOps	Docker, Nginx, PM2, VPS, Vercel, Netlify
Integrations	Razorpay, Nodemailer, BullMQ, SMTP

Professional Experience

Full Stack Developer – TTL Engineering Pvt Ltd	Apr 2024 – Present
- Shipped 5+ production applications across healthcare, business automation, and CMS domains, building 100+ reusable React components to accelerate feature delivery and maintain UI consistency. - Designed and developed 45+ REST APIs using Node.js, Express.js, and FastAPI for authentication, RBAC, payments, and business workflows, improving API performance through query optimization and caching. - Delivered core modules for a multi-role Hospital Management platform supporting Doctor, Pharmacy, Lab, Blood Bank, Ambulance, and Admin workflows with secure role-based access control. - Implemented Razorpay payment flows, server-side verification, and webhooks for secure production transactions, while managing Docker-based deployments, Nginx, PM2, and VPS infrastructure.	
Frontend Developer – Civil-AI	Jan 2024 – Mar 2024
- Built 40+ reusable React components and integrated 20+ REST endpoints, implementing robust loading, error handling, and API-driven UI states. - Translated UI/UX designs into accessible, responsive production interfaces, collaborating with designers and cross-functional teams in an Agile development environment.	
Teaching Assistant – Coding Ninjas	May 2023 – Nov 2023
Mentored 150+ students in JavaScript and React.js through code reviews, debugging support, and hands-on project guidance.	

Selected Projects

Pragya Yoga Alliance – Full Stack SaaS Platform	Live Demo
<i>React.js · Node.js · Express.js · MongoDB · Redis · BullMQ · Razorpay</i> - Built and deployed a production SaaS platform managing memberships, classes, workshops, events, attendance, referrals, payments, and administrative operations. - Implemented Redis + BullMQ background jobs for asynchronous notifications and email workflows, improving API reliability under load. - Integrated Razorpay with order creation, server-side payment verification, and webhooks for secure transaction processing.	
MetaHealth – Healthcare Management Platform	
<i>React.js · Node.js · Express.js · MongoDB · Razorpay</i> - Built role-based dashboards and protected workflows for 7+ hospital roles, enabling secure access across clinical, pharmacy, laboratory, blood bank, and administrative operations. - Implemented RBAC, CRUD modules, and reusable enterprise workflows supporting secure multi-role health-care operations.	
GeoTech – Project Management System	GitHub
<i>React.js · FastAPI · MySQL · SQLAlchemy</i> Built a full-stack project management platform with JWT authentication, role-based permissions, reporting dashboards, and project workflows.
